About me

I am a 4th year physics student studying at the *National Institute of Science Education and Research, Bhubaneswar, India*. My research interest lies in the experimental aspects of quantum information processing, specifically in quantum photonics investigating photon-photon and spin-photon entanglement using various quantum systems for applications in quantum technologies.

Nationality: Indian

Education

• National Institute of Science Education and Research (NISER)
Integrated Master's (Current CGPA: 9.16/10.0)

Bhubaneswar, India 2018 - 2023

- Major in physics with a minor in computer science.
- Relevant coursework: Quantum Mechanics, Classical Mechanics, Statistical Mechanics, Electromagnetism, Mathematical Methods, Condensed Matter Physics, Quantum Optics, Quantum information and computation, Experimental Techniques, Non-linear Optics & Lasers, Computational Physics.
- Maharishi Vidya Mandir Senior Sec. School All India Senior Secondary Certificate Examination (CBSE) - 95.6%

Chennai, India May 2018

• PSG Public School
All India Secondary School Examination (CBSE) - CGPA 10

Coimbatore, India *May 2016*

Project Experience

• Research Assistantship
Ultrafast TeraHertz Dynamics Group, NISER

Bhubaneswar, India December 2021 - Present

- Project guide: Dr. Shovon Pal, Assistant Professor, NISER; Adjunct Advisor of Dept. of Materials Science, ETH Zürich.
- Currently working on understanding electrodynamics and band structures in semiconductor heterostructures specifically GaAs quantum dots for tailoring quantum optical phenomena.
- Sixth Semester Project
 Superconducting Spintronics Group, NISER

Bhubaneswar, India April - July 2021

- Project guide: Dr. Kartik Senapati, Reader-F, NISER.
- Worked on a semester project on the topic, "Study of spin current in NM/HM bilayer and trilayer systems".
- The goal was to be able to detect spin current via a bilayer system involving
 Cu and Pt, using the method of electrical detection.
- Through the project, I obtained hands on experience with experimental techniques such as magnetron sputtering and focused ion beam.

• Software Developer Internship

Quantum Brilliance

Australia February - April 2021

- Project guide: Dr. Nariman Saadatmand, QBQE Product Manager.
- Worked on QB's quantum emulator (QBQE) and enhanced functionality of its QAOA module using C++.

• Summer Project

Institute of Physics, Bhubaneswar

Bhubaneswar, India May - June 2019

- Project guide: Dr. Debakanta Samal, Reader-F, Institute of Physics.
- Did a reading project on "Study on Anisotropic Magnetoresistance".
- Topics covered: Origin of magnetoresistance, theory of magnetoresistance in real metals using the 2-band charge carrier model, origin of anisotropic magnetoresistance, its applications and current research scenario in the field.

Honors/Awards

• IBM Qiskit Advocate

2021

IBM Quantum

- Selected from a pool of global applicants.
- This achievement depicts a deep level of understanding with Qiskit including circuits, algorithms, simulators, qubits and noise.
- Through my contributions to the Qiskit and the quantum community, I have demonstrated an ability and commitment to educate and influence others by sharing ideas, knowledge and expertise in the field of quantum computing.

Zonal topper

2021

Mimamsa 2021

IISER Pune

- Science quiz competition for undergraduates with participations from universities all over the country.
- Our team became the zonal topper for the *Odisha and Paschim Medinipur district (WB)* zone.

• National Graduate Physics Examination (National topper)

2020

Indian Association of Physics Teachers

 Secured a score within the top 118 students among 12,000 candidates in the country.

• Department Topper (1st & 2nd year)

2018-2020

School of Physical Sciences, NISER

- Scored the highest grade in my department for four consecutive semesters (fall 2018, spring 2019, fall 2019, spring 2020).

• INSPIRE Fellowship

2018

Department of Science and Technology, Govt. of India

- Eligible for this prestigious fellowship by the Department of Science and Technology, Government of India.
- Awarded to the top 1% students at their higher secondary (+2) level, for those pursuing a bachelors in basic sciences.

• Kishore Vaigyanik Protsahan Yojana (KVPY) Fellowship

2017

- A prestigious fellowship program funded by the *Department of Science and Technology*, Government of India.
- Cleared the written examination (stage I) and an interview (stage II) to receive the fellowship.

• National Talent Search Examination (NTSE) Scholarship

2016

National Council of Education Research and Training

New Delhi, India

- A national level scholarship program offered by the Government of India.
- It is one of the oldest and most prestigious scholarship programmes in the country.

Academic Exposure

Qiskit Global Summer School

Virtual

IBM Quantum

July-August 2020

- An intensive 2 week virtual summer school on quantum computation and designing quantum circuits and algorithms using Qiskit.
- Did hands-on coding exercises to learn various quantum algorithms, pulse level control of qubits and concepts in quantum chemistry.
- Also did a project on simulating the ground energy level of LiH molecule using variational quantum eigensolver.
- National Initiative on Undergraduate Science (Physics)

 Homi Bhabha Centre for Science Education, TIFR

Mumbai, Maharashtra *June 2019*

- Selected as one of top 70 students in the country to participate in this camp.
- An extensive 12-day course containing lectures, independent lab work and a field trip for 2 days.
- Lecture series on quantum mechanics, quantum information theory and quantum computation, basic condensed matter physics, many body physics, astronomy and astrophysics.
- Performed around 30 hours of independent lab work.

Contributions

Qiskit Textbook

GitHub

Learn Quantum Computation using Qiskit

April 2020 - Present

- Qiskit is IBM's software development kit for building software to interact with IBM's quantum devices and OpenQASM.
- The textbook is equivalent to a university level course for learning quantum computation and beyond.
- I am a collaborator for this project and have actively contributed with over 50+ commits since April 2020.

Licenses & Certifications

• IBM Certified Associate Developer

IBM

Quantum Computation using Qiskit v0.2X

July 2021

 This certification demonstrates fundamental knowledge of quantum computing concepts and the ability to express them using the Qiskit open source software development kit (SDK). Shows experience in using the Qiskit SDK from the Python programming language to create and execute quantum computing programs on IBM Quantum computers and simulators.

• Introduction to Quantum Computing Course

Qubit by Qubit

IBM Quantum & The Coding School

October 2020 - May 2021

 Developed a foundational understanding of quantum computing, with topics including introductory linear algebra, coding with Qiskit, quantum mechanics, quantum algorithms, and quantum applications.

• Challenge Fall 2020 Achievement - Intermediate

IBM

December 2020

- Demonstrated an ability to implement near-future quantum data structures and design a quantum game solver using Grover's algorithm.
- Showed an understanding of quantum circuits, the gates that comprise such circuits, Grover's algorithm, and qRAM (quantum random access memory) as a way to implement complex data structures.

• CS-191x: Quantum Mechanics and Quantum Computation

edX

University of California, Berkeley

August 2020

- Coursework involved ranging from the basics of the qubit to quantum algorithms such as Grover's, Shor's etc. to the Bloch sphere and Schrödinger's wave equation.
- Final score: 97%

Volunteering

• Project Lovelace

IBM Quantum

Scientific Programming Problems

May 2021 - Present

- Project Lovelace is a platform to learn science through programming.
- Member of the team to add new problems and maintain the website (both frontend and backend).
- Website: https://projectlovelace.net

• Full-Stack Quantum Computation

Community-driven, Opensource Education Resources

December 2020 - Present

- Part of the team as a curator of various articles on quantum technologies, submitted by volunteers.
- Website: https://fullstackquantumcomputation.tech

Volunteer

NISER Open Day

April 2019

- Outreach programme for depicting the wonders of science to school students from grades 9 to 12.
- I was involved in the demonstration of plasma generation using grapes and a microwave oven as part of our team's project.

Mentor

Avanti Fellows NGO

January - April 2019

- Duties included mentoring students from grades 11 and 12.

 My weekend work involved having a one-to-one discussion with students on physics and general advice on entrance exams.

Technical Skills

Programming and scripting languages

C, C++, Bash, and Python (Libraries: Scipy, Numpy, Matplotlib, Sympy)

Markup languages

LTEX, Markdown, Groff, HTML

Quantum Frameworks

Qiskit

General computing tools

Vim, git, tmux, gnuplot, unix commandline
